

Dr. Spencer Benson is the director of the [Center for Teaching Excellence](http://www.cte.umd.edu/staff/sbenson.html) at the University of Maryland, an associate professor in the Dept. of Cell Biology and Molecular Genetics and an affiliate professor in the Dept. of Curriculum and Instruction. He received his B.S. degree in Zoology from the University of Vermont (1973) and his Ph.D. in Genetics from the University of Chicago (1978). As director of the Center for Teaching Excellence he is responsible for overseeing more than 30 programs designed to improve teaching and student learning through professional development of faculty, graduate students and undergraduates. He has done extensive work on Outcome Based Education (OBE) involving the development and assessment of student learning outcomes for university programs and individual classes. He has done workshops on teaching and learning in more than a dozen countries. Dr. Benson has received numerous teaching awards including, the College of Chemical and Life Science teaching award, the 2002 CASE-Carnegie Maryland Professor of the Year award, and the 2003 University of Maryland System Regents Teaching Award and is 2001 CASTL Carnegie Fellow. He spent 2008-2009 as Visiting Fulbright Scholar at the University of Hong Kong (HKU) where he is working with HKU and the Hong Kong America Center (HKAC) on the Hong Kong General Education Initiative. For his numerous educational publications, please refer to the following website: <http://www.cte.umd.edu/staff/sbenson.html>.
